

Brandan Scully, Ph.D.

Brandan.M.Scully@usace.army.mil

Dr. Brandan Scully is a Research Civil Engineer with the Coastal & Hydraulics Lab of the Engineer Research & Development Center. He has worked in navigation and waterway related areas for over 10 years, with experience gained in shipboard operations and aids to navigation management in the US Coast Guard and as the Chief of Navigation at the USACE Charleston District. He earned a BS in mechanical engineering from the US Coast Guard Academy in 2003, a master's degree in coastal engineering from North Carolina State University in 2012, and a PhD from Mississippi State University in 2016. Dr. Scully's research under the Dredging Innovations Group High Level Dredging Trends work unit is aimed at creating value for overlooked dredging data sources.
